SKILLS

CSS	<i>Experienced</i>	JavaScript	<i>Experienced</i>
React	<i>Experienced</i>	Npm/Yarn	<i>Experienced</i>
HTML5	<i>Experienced</i>	Git	<i>Experienced</i>
Git	<i>Experienced</i>	Backend Development	<i>Beginner</i>

PROJECTS

❖ Functional Amazon Clone

- Utilized ReactJS to develop a mobile-responsive, user-friendly Amazon clone website with back-end features, including log-in and cart systems.
- Translated business and other design specs into an end-user experience with production-ready code.
- Anticipated customer needs/concerns to include additional quality-of-life features on the website.

❖ Portfolio

- Revamped a portfolio website for responsivity and user-friendliness with reproducible code and traceable development on Github.
- Managed the website's development from planning to inception, including front-end development, architecture, interface design, site structure, navigation, and page optimization.
